

COLE BUILDERS
1001 N. Hampton Rd.
Desoto, TX 75115

COLE BUILDERS is a third generation company building homes since the 1950's. Specializing in luxury custom homes, COLE BUILDERS can help transform your damaged home back to a showplace.

We currently have five homes in the Pointe West area for Galveston residents to view. (Two of these homes are still for sale.) Our homes sustained very little damage from Hurricane IKE due to our familiarity with the newest building codes, and our quality control that is designed to minimize damage during strong storms. (post storm photos attached)

COLE BUILDERS has experience working with insurance companies. Furthermore, our company is insured to protect our clients. We are currently on Galveston Island repairing homes and will be here to help long after the storm chasers have vanished.

Call or email for a consultation.
